---

Beginning July 1, 2006, all Utah archaeological permits (survey and excavation) will be issued by the Public Lands Policy Coordinating Office. Communication will be forthcoming from that office regarding application procedures.

In the meantime, all permits issued by the Antiquities Section will remain valid until the expiration date indicated on the permit. Permit applications received prior to July 1, 2006 will be processed following the existing procedures through the Antiquities Section. The Antiquities Section will issue no permits after June 30, 2006.

You may wish to review the statutory changes, available at <http://www.leg.state.ut.us/~2006/bills/hbillenr/hb0139.htm>
